

Lightning & Inclement Weather:

For the safety of all children in the SSYFCA league, please read the following statement: Practices/games can be delayed or canceled due to inclement weather conditions, including lightning. If parents do not stay at the fields during practices or game times, please be sure your child can contact you for a ride home, if necessary, or have an alternate plan for getting your child home should the need arise. Members of the SSYFCA Board of Directors and team coaches will make the decisions to call practices/games and reschedule as necessary.

A lightning detector is in use during practice and game times. If warning signals alarm within a 5 mile range or closer, **children must be relocated OFF the fields to a safe location**. Practice will resume after 30 minutes after the last alarm is noted. Children should not be on the fields or in the bleachers during this wait time, under any circumstances.
